ABOUT

The iSee2 Gloves are very light and flexible which allows you to feel the substrate through the glove and the vinyl. This will help you to achieve a perfect placement of the self-adhesive film, even in difficult areas. Moreover, the textile of the glove leaves no fibers on the glue and/or back of the film during application.

Available in 3 sizes/colours: medium (orange), large (black) and extra-large (white).

FEATURES

- ✓ LIGHT & FLEXIBLE
- ✓ "FEEL THROUGH"
- ✓ DOES NOT LEAVE ANY FIBRES
- ✓ DURABLE
